CURRICULUM VITAE

JAN ENGLER

EDUCATION

High School

· Gymnázium, obchodní akademie a jazyková škola Hodonín

B.S.

· Charles University, Faculty of Mathematics and Physics, Prague, Czech Republic B.S. in Mathematical Modelling. Bachelor thesis *Onsager-Machlup principle and machine learning* under doc. Michal Pavelka

TEACHING

2026-27 exercise Mathematical Analysis I at Charles University

2026-27 course on ODEs for high school students

SCIENTIFIC ACTIVITIES

Grants

· 10/2024-5/2025 Student faculty grant (principle investigator) *Machine learning and chemical reactions* under doc. Michal Pavelka

Conferences

· 6/2025 IWNET 2025 (10th International Workshop on Non Equilibrium Thermodynamics), talk *Chemical kinetics of Lennard-Jones cluster isomerization using the Onsager–Machlup action*

· 6/2026 EQUADIFF 2026, help with organization

MISCELLANEOUS

Awards

· 6/2022 first place Student's professional Activities, branch *1. Mathematics and Statistics*, for work *Intuicionistická logika a její modely* (en. *Intuitionistic logic and it's models*)

Special Lectures

Lectures given in the Hodonín city library to the wider public.

· 6/2022 *Paralelní budoucnosti v intuicionistické logice* (en. On Alternate Futures in Intuitionistic Logic)

· 10/2022 *Záhady kvantové fyziky* (en. Mysteries of Quantum Physics)

· 2/2023 *Díry - nejen ty dvourozměrné - v Algebraické topologii* (en. Holes - not only the 2D ones - in algebraic topology)

· 6/2023 *Chaos a řád – život a smrt* (en. Chaos and Order, Life and Death)

· 11/2023 *Život a dílo J. Roberta Oppenheimera* (en. Life and Work of J. Robert Oppenheimer)

· 11/2024 *Strojové učení a co z něho plyne pro běžného člověka* (en. Machine Learning and What it Means for the Commoner.)

Languages

· Czech native

· English C1 (CAE)
